

Coach Toni's - TESTIMONIALS

Over the past several years, my handicap index had gone from 5 to over 11, and golf was not fun anymore. I couldn't hit the ball on the club-face to save my life!

After watching me hit just a few balls, Toni keyed on a few crucial areas (one at a time), and I immediately started seeing improvement. I'm back to hitting shots with a natural draw; and for a change, I'm really looking forward to playing golf and making good shots!

I have watched Toni work successfully with golfers of all abilities; I think she is truly a gifted teacher.

VP/Regional Manager

I want to let you know how much I appreciate the way you teach and what it's done for my game.

I am completing my third full year of playing regularly. I started out in the spring of this year with a 26 handicap and by the end of summer was down to 22 but had stalled and was not progressing. I was getting pretty frustrated feeling like I should be able to play better but was still shooting in the mid to upper 90's. In one private lesson and three group practice sessions with you, you taught me to trust my swing, stop trying to be so mechanical, relax and have fun.

You gave me a few tips about ball alignment and weight shift but mostly you are so encouraging to "find your own swing". You taught me to see the shot, step up, swing and release. You taught me to close my eyes and "feel the shot". As a result, I am so much more at ease when I step up to hit the ball.

I am relaxed, swinging with confidence and have found my shot and my swing.

I went out after these few sessions with you and shot an 88 and an 86 (my best round ever) in wet and cold conditions. I hit more fairways, more greens in regulation and fewer putts than I ever have and in those two rounds, my handicap dropped to 20.

More importantly, I am having more fun and feeling more relaxed and stress free than ever and this is why I started playing golf.

I can't thank you enough and will be telling anyone who's interested that you are the golf teacher of the year.

When I first heard about Toni Taylor from a friend I had just played another round of pushes, pulls, fades and miss hits (a constant struggle during each round !) I had worked my way down to a 9.6 index and was now aware that this was my low without a better understanding of the game.

It was only after the first lesson on the range (only hit 5 balls) that Toni's style and experience was like none of the other 10 lessons I had over the last decade and I was looking forward to getting to the next level of my game. After the 2nd lesson things only got better! Her teaching style fits you not a text book!

I am very happy to state that Toni and her experience have given me a swing that is much more conducive to scoring much better and enjoying the feel of the swing.

I have had many pro's look at my swing and never was taught what Toni taught! The proof for me was twofold:

1. the extra distance of 20-30 yards off the tee with much better feel in regards to club face to the ball.

2. my playing partners of ten years wondering who this Toni Taylor lady was because they have paid me recently much more on the course than I have to them !

If you are looking for a new way of taking lessons I would call Toni and get set up!
Thanks Toni very much .

Best regards,

Ron Erdahl
General Manager – Sauders Industries

Toni Taylor is a true professional that understands how the biomechanics of the body work together with the mind to produce beautiful movements in the world of golf. I was skeptical about golf lessons because I had bad instruction before but Toni has given me the tools to finally enjoy the game. Thanks for your passion and excitement Toni!

The lessons my sons have taken from Toni have proven to be fun, innovative and invaluable.

Each time they come home after a lesson they are positively glowing - they truly enjoy the time they spend with Toni. They are able to take the things they've had fun learning in a lesson, and apply them on the golf course. Not only has their level of play increased, but I believe their enjoyment for the game has increased as well!

Kim Madey,

During summer 2006 I signed up for a six-lesson series with Toni Taylor. Toni provided outstanding instruction beginning with irons moving to woods and then to the putting green for green side shots and putting. The experience was great! Toni has super teaching skills and true depth of understanding of all aspects of golf. The lessons were fun and dramatically improved my game and my enjoyment of golf. Remember your favorite teachers from the past and find a new favorite in Toni. One-on-one time with a pro is invaluable and I highly recommend her.”

Hey Toni-

Just wanted to give you a huge thanks for working so well with Kevin. He came back today from working with you so enthusiastic - more so than I have seen in a long time.

Thanks for your kind and encouraging words to him - he was beaming - I know this is improving his self confidence and esteem tremendously. He is thoroughly enjoying your teaching and your instruction and I see a huge lift in his step now towards golf again.

He was good, but now he thinks he can be better than last year...

MaryJo Day

...Toni is not only a delight to talk to she has great golf wisdom. She analyzed my swing in a flash and provided three very insightful adjustments during our first session together.
