

Over the past several years, my handicap index had gone from 5 to over 11, and golf was not fun anymore. I couldn't hit the ball on the club-face to save my life!

After watching me hit just a few balls, Toni keyed on a few crucial areas (one at a time), and I immediately started seeing improvement. I'm back to hitting shots with a natural draw; and for a change, I'm really looking forward to playing golf and making good shots!

I have watched Toni work successfully with golfers of all abilities; I think she is truly a gifted teacher.
